Forensic Science International, 54 (1992) 197–199
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 54 (1992)

algorithms, death, time, temperature, 109
ametryn, triazine herbicides, atrazine, cyanazine, prometryn, simazine, Sep-Pak C_{18} cartridges, capillary gas chromatography, nitrogen-phosphorus detector, 159
archaeometry, bone engravings, forensic archaeology, radiocarbon dating, forgery ideology, Deventer bones, 93
atrazine, triazine herbicides, ametryn, cyanazine, prometryn, simazine, Sep-Pak C_{18} cartridges, capillary gas chromatography, nitrogen-phosphorus detector, 159

benzodiazepines, whole-blood, quantitative analysis, LC/TSP/MS/MS SRM, daughter ion mode, 67
birds, monochloroacetate, mass spectrometry, residues, toxicity, 1
bone engravings, forensic archaeology, archaeometry, radiocarbon dating, forgery ideology, Deventer bones, 93
brain death trauma, myocardial lesion, contraction band, calmodulin, calcium overload, 181

calcium overload, trauma, myocardial lesion, contraction band, calmodulin, brain death, 181
calmodulin, trauma, myocardial lesion, contraction band, calcium overload, brain death, 181
capillary gas chromatography, nitrogen-phosphorus detector, ametryn, triazine herbicides, atrazine, cyanazine, prometryn, simazine, Sep-Pak C_{18} cartridges, 159
case report, pesticides, endrin, gas chromatography, poisoning, 177
cervical fracture, hanging, hangman, execution, 81
clinical gastric aspirates, wide-sweep screen, mega-bore capillary GC/NPD, mass spectrometric confirmation, quality control 141
cocaine, hair levels, serum levels, morphine, murine retroviral infection, 29
contraction band, trauma, myocardial lesion, calmodulin, calcium overload, brain death 181
corpse, nose, outer ear, temperature, postmortem period, 153
corrective factors of the body weight rectal temperature time of death nomogram, 51
cyanazine, triazine herbicides, ametryn, atrazine, prometryn, simazine, Sep-Pak C_{18} cartridges, capillary gas chromatography, nitrogen-phosphorus detector, 159

daughter ion mode, benzodiazepines, whole-blood, quantitative analysis, LC/TSP/MS/MS SRM, 67
death, time, temperature, algorithms, 109
dental ageing determination, human teeth, forensic odontology, 23
Deventer bones, bone engravings, forensic archaeology, archaeometry, radiocarbon dating, forgery ideology, 93
discriminant analysis, forensic anthropology, skull, sex determination, identification, 135
drugs, urine analysis, humans, horses, screening, hordenine, immunoassays, 9

endrin, pesticides, case report, gas chromatography, poisoning, 177
execution, hanging, hangman, cervical fracture, 81
express method, human semen, relative affinity, forensic medicine, monoclonal antibody, 39

flow cytometry, spontaneous abortion, ploidy, normal placenta, hydatidiform mole 167
forensic anthropology, skull, sex determination, discriminant analysis, identification, 135
forensic archaeology, bone engravings, archaeometry, radiocarbon dating, forgery ideology, Deventer bones, 93
forensic medicine, human semen, relative affinity, monoclonal antibody, express method, 39
forensic odontology dental ageing determination, human teeth, 23
forgery ideology, bone engravings, forensic archaeology, archaeometry, radiocarbon dating, Deventer bones, 93

gas chromatography, pesticides, endrin, case report, poisoning, 117

hair levels, serum levels, cocaine, morphine, murine retroviral infection, 29
hanging, hangman, execution, cervical fracture, 81
hangman, hanging, execution, cervical fracture, 81
hordenine, urine analysis, humans, horses, drugs, screening, immunoassays, 9
horses, urine analysis, humans, drugs, screening, hordenine, immunoassays, 9
human semen, relative affinity, forensic medicine, monoclonal antibody, express method, 39
human teeth, dental ageing determination, forensic odontology, 23
humans, urine analysis, horses, drugs, screening, hordenine, immunoassays, 9
hydatidiform mole spontaneous abortion, flow cytometry, ploidy, normal placenta, 167

identification, forensic anthropology, skull, sex determination, discriminant analysis, 135
immunoassays, urine analysis, humans, horses, drugs, screening, hordenine, 9
intramyocardial haemorrhage maternal death, thrombotic thrombocytopaenic purpura, 75

LC/TSP/MS/MS SRM, benzodiazepines, whole-blood, quantitative analysis, daughter ion mode, 67

mass spectrometric confirmation, clinical gastric aspirates, wide-sweep screen, mega-bore capillary GC/NPD, quality control 141
mass spectrometry, monochloroacetate, birds, residues, toxicity 1
maternal death, thrombotic thrombocytopaenic purpura, intramyocardial haemorrhage, 75
mega-bore capillary GC/NPD, clinical gastric aspirates, wide-sweep screen, mass spectrometric confirmation, quality control, 141
monochloroacetate, birds, mass spectrometry, residues, toxicity, 1
monoclonal antibody, human semen, relative affinity, forensic medicine, express method, 39
morphine, hair levels, serum levels, cocaine, murine retroviral infection, 29
murine retroviral infection, hair levels, serum levels, cocaine, morphine, 29
myocardial lesion, trauma, contraction band, calmodulin, calcium overload, brain death, 181

nitrogen-phosphorus detector, capillary gas chromatography, ametryn, triazine herbicides, atrazine, cyanazine, prometryn, simazine, Sep-Pak C_{18} cartridges, 159
normal placenta, spontaneous abortion, flow cytometry, ploidy, hydatidiform mole, 167
nose, outer ear, temperature, postmortem period, corpse, 153

outer ear, nose, temperature, postmortem period, corpse, 153

pesticides, endrin, case report, gas chromatography, poisoning, 177
ploidy, spontaneous abortion, flow cytometry, normal placenta, hydatidiform mole, 167
poisoning pesticides, endrin, case report, gas chromatography, 177
postmortem period, nose, outer ear, temperature, corpse 153
prometryn, triazine herbicides, ametryn, atrazine, cyanazine, simazine, Sep-Pak C_{18} cartridges, capillary gas chromatography, nitrogen-phosphorus detector, 159

quality control clinical gastric aspirates, wide-sweep screen, mega-bore capillary GC/NPD, mass spectrometric confirmation, 141
quantitative analysis, benzodiazepines, whole-blood, LC/TSP/MS/MS SRM, daughter ion mode, 67

radiocarbon dating, bone engravings, forensic archaeology, archaeometry, forgery ideology, Deventer bones, 93
rectal temperature time of death nomogram, corrective factors of the body weight, 51
relative affinity, human semen, forensic medicine, monoclonal antibody, express method, 39
residues, monochloroacetate, birds, mass spectrometry, toxicity, 1

screening, urine analysis, humans, horses, drugs, hordenine, immunoassays, 9
Sep-Pak C_{18} cartridges, triazine herbicides, ametryn, atrazine, cyanazine, prometryn, simazine, capillary gas chromatography, nitrogen-phosphorus detector, 159
serum levels, hair levels, cocaine, morphine, murine retroviral infection, 29
sex determination, forensic anthropology,

skull, discriminant analysis, identification, 135
simazine, triazine herbicides, ametryn, atrazine, cyanazine, prometryn, Sep-Pak C_{18} cartridges, capillary gas chromatography, nitrogen-phosphorus detector, 159
skull, forensic anthropology, sex determination, discriminant analysis, identification, 135
skull face superimposition, skull positioning device 127
skull positioning device skull face superimposition, 127
spontaneous abortion, flow cytometry, ploidy, normal placenta, hydatidiform mole 167

temperature, death, time, algorithms, 109
temperature, nose, outer ear, postmortem period, corpse 153
thrombotic thrombocytopaenic purpura, maternal death, intramyocardial haemorrhage, 75
time, death, temperature, algorithms, 109
toxicity monochloroacetate, birds, mass spectrometry, residues, 1
trauma, myocardial lesion, contraction band, calmodulin, calcium overload, brain death, 181
triazine herbicides, ametryn, atrazine, cyanazine, prometryn, simazine, Sep-Pak C_{18} cartridges, capillary gas chromatography, nitrogen-phosphorus detector, 159

urine analysis, humans, horses, drugs, screening, hordenine, immunoassays, 9

whole-blood, benzodiazepines, quantitative analysis, LC/TSP/MS/MS SRM, daughter ion mode, 67
wide-sweep screen, clinical gastric aspirates, mega-bore capillary GC/NPD, mass spectrometric confirmation, quality control, 141
